MOL Safety Blitz Targets Construction Sites and Surface Mines

Date: July 5, 2012

The [Ontario government has announced](#) that during the months of July and August 2012, the Ministry of Labour (“MOL”) will perform safety blitzes of construction sites and surface mines across Ontario.

MOL inspectors will:

- check construction sites for hazards involving tower and mobile cranes;
- target activities involving the transportation of stone, sand, gravel and other raw materials at mining pits and quarries; and
- check on maintenance of equipment, worker training, the use of safety equipment and other potential health and safety hazards.
