### Fall 2012 Safety Blitzes Announced by Ontario Government

**Date:** August 22, 2012

The Ontario government [has announced](#) the launch of four targeted safety blitzes at workplaces across the province this Fall. The planned blitzes will focus on:

- supervision at construction sites (September and October);
- machine guarding hazards and repetitive strain injuries in manufacturing and industrial workplaces (October and November);
- infection prevention and control in health care workplaces (October and November); and
- transfer of ore in underground mines (November and December).

During the blitzes, Ministry of Labour inspectors will check on the following;

- the condition and maintenance of safety equipment;
- worker training;
- the use of safety equipment; and
- other potential health and safety hazards to help prevent workplace injuries.
